Art Unit: 1722

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of 1. record fails to teach or suggest a melt blowing head having a polymeric material inlet channel and a melt-blowing die with a plurality of holes; a geared displacement pump delivering material to two main channels having like shapes and size from which extends a channel arrangement for distributing the polymeric material from the inlet channel to each hole of the die; the channel arrangement having a tree construction extending from the polymeric material inlet channel and having a plurality of tree branches each of which ends at a respective hole of the die, each main channel having an end portion defining a knot and having two side branches extending therefrom, each of the side branches having the same L-shape and size, the L-shape having a vertical leg downward, the branches having end portions forming middle branches forming further knots therefrom further secondary side braches extend having an equal L-shape and size as those of the first and second branches, thereby to each hole of the meltblowing die will correspond a like extruding path.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Application/Control Number: 09/977,898

Art Unit: 1722

References of Interest

2. Zimmer (5,992,453), Nelson (3,619,859), Landoni (3,767,347), Shirai et al (5,783,129), Pipkin (4,387,124) and Zimmer et al (4,550,681) are cited of interest to show the state of the art.

While each of the above references teach a channel arrangement similar to the claimed apparatus, the prior art fails to teach or suggest the arrangement in combination with a melt blowing head and die.

Correspondence

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Joseph S. Del Sole whose telephone number is (571) 272-1130. The examiner can normally be reached on Monday through Friday from 8:30 A.M. to 5:00 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ms. Wanda Walker, can be reached at (571) 272-1151. The official fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306 for both non-after finals and for after finals.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from the either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on the access to the Private PAIR system, contact the Electronic Business Center (EBC) at 886-217-9197 (toll-free).
